Art Unit: 2855

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: Citizenship or address of the inventor is not provided.

2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error, which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

3. Claims 1-15 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath is set forth in the discussion above in this Office action.

4. Claims 1-15 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. The newly added independent claims remove the limitation related to, (1) the microwave frequency and (2) an angle of detection to be between 30 and 40 degrees. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

5. The amendment filed 07/20/05 and 08/03/00 proposes amendments to claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

6. Applicant's arguments filed 8/7/07 have been fully considered but they are not persuasive. First, the applicant indicates that a newly executed supplemental declaration for the application to correct the errors has been included, however, no such declaration has been submitted with the current amendment. Moreover, the applicant argues that the language eliminated from the claim was unnecessary to patentably distinguish the invention over the prior art of record. However, it is according to 35 U.S.C. 251 that the claims cannot be broadened outside the two year period.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
